

Music Student of the Month

Jessica Cartisser

Violin, 7th grade Strings

Jessica Cartisser started learning to play the violin two years ago. She says, "It takes two years to learn how to play the violin well enough to like how you play." She practices a lot, especially songs that she creates. Jessica's advice to new music students is to keep practicing. She emphasizes, "If practice starts to not be fun, then play something you like or create something of your own."

Mrs. Wright told Jessica, "When you play, you are leading; you are a leader." Jessica says that the Strings students help each other a lot in class, and they like listening to each other play. She says, "When we play by ourselves, we listen to ourselves, and when we play as a group, we learn how to listen to others." What a great life skill!

Congratulations to Jessica Cartisser,
December 2023 Music Student of the Month!
