

Music Student of the Month

Max Dickey Vollmer

Cello, 10th Grade Strings

High School Strings is the first class of Max's school day. He says that playing music with your friends sets a super fun mood for the day and activates your mind without stressing it out. "Music uses all parts of the brain, so it really helps me get prepared for the day." Explaining some of the benefits of playing an instrument, Max said, "Knowing how to read music and knowing why music sounds good helps me recognize patterns, and I listen to music differently with a better understanding."

Max described Strings Director, Pamela Wright, as a great teacher who always takes time to help out each student individually. Pamela Wright says, "I enjoy Max for a couple reasons: He works very hard, and he brings joy and fun to the ensemble."

Congratulations to Max Dickey Vollmer,
September 2024 Music Student of the Month!
